

GiftCompass Customer Lifecycle

VERSION 02 · 8 OCTOBER 2026
5 phases · 13 steps

Who does what — from a first account to every future occasion.

- **Sender**
buys the gift
- **Recipient**
optional — shares interests only if they agree
- **GiftCompass app & AI**
automatic — nobody has to do it
- **Retailer / delivery partner**
external — fulfils and delivers
- **Two colours in one step**
two roles act there

IN PLAIN WORDS Sarah wants a birthday gift for her friend. She creates a GiftCompass account, sends her friend an optional preference invitation, and gets personalised recommendations with a reason for each. She buys one and the retailer delivers it. **Next occasion**, Sarah reuses her friend's saved profile — she enters only the new occasion and budget, and GiftCompass suggests something new.

The same journey, seen by the person receiving the gift. Taking part is always optional.

● Sender ● Recipient ● GiftCompass app & AI ● Retailer / delivery partner

TikTok connection depends on official platform authorisation, which the project has not yet obtained; the short questionnaire is the route available today.
